#### High risk and international

- Evidence of COVID-19 community transmission
- Rate of full dose vaccination 80% or lower

- Negative COVID-19 test result received in 72 hours prior to arrival in SA
- Quarantine for 7 days using HealthCheck SA
- COVID-19 test within 24 hours of arrival in SA
- COVID-19 test again on days 6 and 13
- Daily symptom check for 14 days after arrival using HealthCheck SA
- No entry to high risk settings for 14 days after arrival
- No entry to COVID Management Plan events for 14 days after arrival

**Vaccinated returning South Australian residents** leaving the state for 72 hours or less are not required to test prior to arrival.

Vaccination requirements apply to all people more than 12 years and 2 months of age.

## Unvaccinated arrivals

**Unvaccinated** people planning to travel to South Australia must apply for an exemption to travel. Applications for an exemption from entry conditions are an extension of EntryCheck SA and can be made at the end of that application.
